STONECERA

SANDSTONE

PAVING SLABS

SANDSTONE

Indian sandstone paving is a great way to complement any outdoor space that enhances patios, driveways, or garden paths. Paving slabs made of sandstone can easily stand the test of time, along with providing a strong and durable finish that can last for a longer period of time.

Stonecera imports and supplies a handpicked collection of sandstone paving slabs in the UK that is perfect to create a unique look in any outdoor area. You can choose from our wide range of Indian sandstone paving to give a clean, sophisticated look to a modern, contemporary design for an array of different project styles.

Sandstone slabs contain a natural riven surface that offers an authentic feel to any area. It offers a number of functional benefits, which include hardness, longevity, resistance to frosting, and a low water absorption rate.

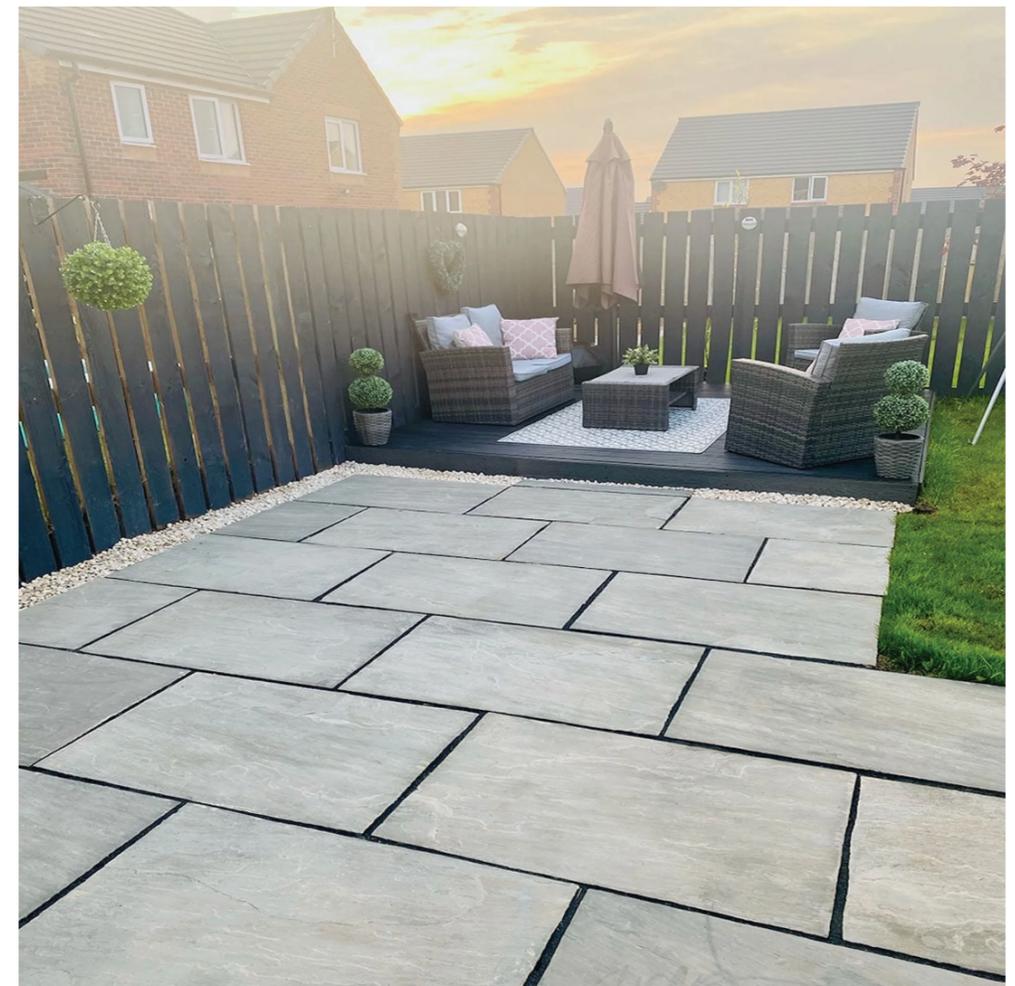

OUR SANDSTONE COLLECTION:

KANDLA GREY SANDSTONE

Kandla Grey sandstone is a versatile natural stone with a subtle mix of Grey and blue tones, ideal for contemporary and traditional designs alike in most outdoor settings.

AUTUMN BROWN SANDSTONE

With warm earthy tones and gentle variations, Autumn Brown Sandstone brings a rustic charm to any setting. Its smooth surface and enduring strength make it an ideal choice for both indoor and outdoor applications, adding a touch of timeless elegance to your spaces.

MINT FOSSIL SANDSTONE

Mint Fossil Sandstone showcases delicate shades of green with subtle hints of beige, creating a tranquil and refreshing ambiance. The stone's fossilized patterns lend a distinctive touch to walls, floors, and other architectural elements, allowing you to craft unique and captivating spaces.

KANDLA CLASSIC SANDSTONE

Kandla Classic Sandstone is a versatile natural stone with a subtle mix of Grey, blue and brown tones, ideal for contemporary and traditional designs alike in most outdoor settings.

RAJ GREEN SANDSTONE

Raj Green Sandstone features a rich blend of earthy green hues, making it a popular choice for creating a lush and natural ambiance in outdoor spaces to offer a modern and eye-catching ambiance.

RAJ BLEND SANDSTONE

Raj Blend Sandstone is an exquisite natural stone that is often preferred for its aesthetic appeal and durability. It showcases an appealing blend of brown, green, and Grey hues that seamlessly blend into the outdoor environment, creating a stunningly beautiful patio and paving option.

MODAK SANDSTONE

Modak Sandstone paving is a standard paving option you can see in traditional and classic garden designs. Still, it can also be used to create contemporary design styles outdoors with time. It is a versatile material that can be used both indoors and outdoors.

SAGAR BLACK SANDSTONE

Sagar Black Sandstone is a distinctive sandstone that comes in darker shades than other sandstone slabs and offers a lavish feel to exteriors, consists of charcoal Grey and black colors with a beautiful veining of yellow color throughout the stone's surface.

LALITPUR YELLOW SANDSTONE

Lalitpur Yellow Sandstone contains a much darker tone of colors than the colors in mint fossil sandstone. It is a distinctive choice of paving that blends well with either element of your outdoor area and creates a beautiful patio.

WHY CHOOSE SANDSTONE?

Sandstone is a timeless and versatile natural stone that has been used for centuries in construction and design. Its unique combination of durability, aesthetic appeal, and natural color variations make it a popular choice for both interior and exterior applications. Here are some key reasons to consider sandstone for your next project:

COST-EFFICIENT OPTION

Indian sandstone is a cost-effective option as compared to any other outdoor paving option. Getting sandstone paving slabs in the UK for outdoor paving is like having a full-packaged deal with pocket-friendly pricing.

AESTHETIC APPEARANCE

Sandstone paving comes in a variety of colors and design options that can seamlessly blend with any style. Sandstone is a natural stone that contains natural hues, which is great for creating a one-of-a-kind look in your garden area.

AESTHETIC APPEARANCE

DURABILITY

FEATURE DESIGN

DURABILITY AND RESISTANCE

Indian sandstone paving is a durable option for a place where heavy foot traffic is consistent. It can easily bear heavy loads for a longer period of time without showing any signs of cracking or chipping. In addition to this, it is also resistant to harsh weather conditions, making it a perfect option for paving.

FEATURE DESIGNING

Indian sandstone paving is also famous for its incredible shades and looks that are highly resistant to water, which makes it a great option to use in creating water features, fountains, and water pools in your landscaping projects.

STYLE AND ELEGANCE FOR GARDENS.
